Millersville Monthly

A community spotlight from
Millersville at Fall Creek Valley

Millersville Musings

A note from your Board President, Amy Hammes

Hi Neighbor!

Happy 10th Anniversary, Millersville at Fall Creek Valley! Ten years ago a group of concerned neighbors took action to protect the integrity of our neighborhood when O'Malia's, an anchor in our business village, left. MFCV was born from this group, and [for nearly a decade](#), we have promoted community advocacy, beautification, and historical preservation. We are not slowing down!

We've been working hard to focus on our vision for this upcoming year. Our goal as an organization centers around protecting and advancing your investment. We want you to know that we have your back, and as a community, we are stronger together. Our goal is to strengthen connections among residents, neighborhood leadership, and business owners. With every effort MFCV makes, we want you to identify Millersville as a community that is ever-evolving, growing, and improving.

With this in mind, we are full steam ahead on our upcoming 2020 projects. In the past few months we have been securing funding in partnership with the City of Lawrence for our I-465/56th Street Gateway Project; we are updating our plans for the Millersville Village signage project; we are set to resume our popular Quick Hitter Litter Clean Ups when the weather improves; and we're developing plans in collaboration with the Masonic Lodge to co-host a Millersville Community Day in September. Really exciting! Learn more about this at our upcoming **Annual Meeting Wednesday March 18 at Cathedral High School Cafeteria at 6:30 PM.**

You are a stakeholder in this community – we work to improve your experience living in Millersville which in turn protects your investment. We are but volunteers, and we can't do it without you – whether you shop locally, attend our annual meetings and litter pick-ups, or keep your yard looking nice, we appreciate all YOU do to keep our community beautiful.

St. Matthew's Fourth Graders Create Holiday Cards for our Hoosier Troops

BIG THANKS to the fourth grade kiddos at St. Matthew Catholic School here in Millersville for spending time thoughtfully designing holiday cards and writing inspiring messages of gratitude. The cards were sent to Hoosier troops serving in Kuwait. The kids enjoyed a little chocolate as they crafted away as a thanks from MFCV for their time and talents.

Millersville Village: Business District

GETTING TO KNOW YOU

Each month we will feature businesses in the Millersville Village that you may not know a thing or two about.

Manager Lorna Castillo will welcome you and explain the types of care and activities Kesslerwood Place provides for residents in their well-maintained community. MFCV has partnered up with Kesslerwood Place in the past to host students for a Service Day and have a local neighbor, David Hammes, play piano in the lobby for the residents.

Presenting an attractive facility, Assisted Living and Memory Care services are available 24 hours a day. Amenities and services provide residents with an environment which fosters social, physical and spiritual connections.

Kesslerwood Place

5011 Kessler Blvd, East Drive
317-316-3533

Assisted Living residents enjoy a full range of social events and activities plus provisions for needed personal care. Memory Care is person-centered and involves daily rediscovery of changing resident needs.

Looking for help in caring for someone with special needs? Need support services to help with independent living? Need respite care for individuals unable to care for themselves? Terry and Kathy Huser may have just what you need.

Huser Special Care provides a variety of high quality services for children and adults with developmental disabilities and autism. As an approved Medicaid Waiver provider of these services, their caregivers are carefully screened, selected and trained to meet the specific needs of each client.

Huser Special Care

5023 East 56th Street, Suite 310
317-255-5700

Services include respite care for individuals unable to care for themselves, residential support and habitation assisting individuals to develop skills necessary to live in their own home, community rehabilitation outside the home, and assistance and care for individuals to remain in their own homes.
